Project Khmer HOPE English School (PKHES)

PKHES, previously known as Cambodia Tomorrow School, was set up in 2008 by a US non-profit organisation. PKH took over the running of the school in September 2016 and renamed it Project Khmer HOPE English School. This project is in line with our objective of sharing God's love in Cambodia by providing education and vocational skills training to disadvantaged young people to enable them to break out of the cycle of poverty.

The school is located within the grounds of Kampong Speu Orphan Centre ("KSOC"), which is adjacent to PKH Centre in Chbarmorn. There are 2 classrooms, a computer lab and an office, and we employ 3 full-time dedicated local teachers who have been teaching there for many years.

English lessons are provided to about 110 students aged 3 to 18 years old who are orphans in KSOC and the poorer children from the surrounding community. Students attend the local Khmer public school but come to PKHES for English lessons after their regular school lessons. The teaching

materials used are based on the Let's Go and Reward series from Oxford University Press and we provide all materials necessary for lessons including school books, school bags, uniforms, shoes, stationery and refreshments. The teachers and students are also invited to join in the activities and weekend Livingstreams Club at PKH Centre next door.

Students from the school have gone on to good jobs, university and to our PKH Centre for vocational training.

PKH'S SCOPE OF WORKS

PKH works to give the poor a chance to break out of the poverty cycle. These services, aimed at transforming the lives of Cambodian children and youth, are provided free of charge:

- Residential Vocational Skills Training for poor youths (17 to 23 years old)
- Education for poor village children (6 to 15 years old)
- Childcare for orphans and disadvantaged children including street kids (6 to 18 years old)
- English Tuition for students, 3 - 18 years old

VOCATIONAL TRAINING FOR POOR YOUTHS

Many Cambodian youths drop out of school because of poverty. They usually live at subsistence levels by working in the fields; quite a few of them have been driven to delinquency and drugs.

PKH works at transforming the lives of poor young men and women between the ages of 17 and 23 years. This is done by equipping them with vocational skills. Trainees are provided with lodging, food and vocational training at the PKH Centres, free of charge.

Hospitality Skills

Tourism has been on the increase in Cambodia and PKH has chosen to give such youths a hope and future, by equipping them with skills to work in the hotel tourism industry. The 2-year programme comprises an intensive course in the first

year to enable the youths to read, write and speak English, as well as to use the computer. A team of expatriate trainers conducts the training. This is followed by a 3-month industry attachment in the hotels.

Over the years more than 90% of these youths have gained employment in the tourist hubs of Phnom Penh, Siem Reap and Sihanoukville. They work in the departments of Food and Beverage, Housekeeping and the Front Office of the hotels. This year, again, all 100% of them had jobs very soon after completing their training.

Industrial Skills

The Industrial Skills Course is for 1 year and it equips young men with the technical know-how for construction works and building maintenance. The skills taught include basic carpentry, brick-laying, plumbing, welding, electrical works, and the installation and maintenance of air-conditioners. They enable men to seek employment in the maintenance departments of hotels, construction and engineering firms.

With jobs, these young people are able to support themselves and also provide for their families in the provinces. They have a chance to break out of the poverty cycle.

Pastoral Guidance for Youths

As part of the overall development of the youths at the PKH Centre, recreational activities and Christian pastoral guidance are also offered during the weekends. These activities and sessions are organized by the Living Streams Youth Club. The Club aims at improving the social fabric of the community by building the lives and character of youths. There are youths who have come to personal faith in Jesus Christ; they have had their lives transformed by the power of God's love.

ENGLISH TUITION

Lessons are conducted daily for 110 students at the new PKH English School; they are taught to speak, read and write English. A good command of English affords these young people greater opportunity for further academic and vocational training, as well as an advantage in applying for jobs.

EDUCATION FOR POOR VILLAGE CHILDREN

Aoral is a place with one of the lowest literacy rates in Cambodia. Many children do not go to school as their parents cannot afford the cost of education. Furthermore, the schools in this remote district lack trained teachers and educational facilities.

PKH works to 'reach the unreached' by bringing literacy to the minority communities of the tribal Suoy and Krung people living in Tropeng Chou Commune. It does this by providing education for 300 children from the villages of Chom Bok, Trang, Kordounthei and Tanil. These

children attend classes at Chom Bok Primary School, as well as before-after school sessions at the PKH Centre in Trang; this is where they receive their meals every school day, English tuition and lessons from God's Word.

CHILDCARE FOR ORPHANS AND DISADVANTAGED CHILDREN

Seeds of Hope Childcare is PKH's joint effort with another organisation, Full Gospel Assembly Cambodia (FGAC) to care for 100 poor and needy children from 6 to 18 years of age. Since 2001, PKH annually supports a third of these disadvantaged children.

The children are provided with a safe home at the FGAC Centre / Orphanage and with primary and secondary education at the nearby Hope School. Over the years, many of these children have grown up well, with a significant number of them pursuing higher education in the universities in Phnom Penh.

COMMUNITY HELP

Welfare aid in the form of rations or rice, oil, blankets, soap, mosquito nets, clothing and medicines are distributed to poor villagers suffering the effects of drought and floods. PKH also brings aid to communities by embarking on small scale projects to provide wells and solar-powered lighting.
